INSSA AGOSTINHO ABUDO

Youth Digital Officer | Digital Systems, Data and Reporting | Programme Coordination | Interpreter

Mocímboa da Praia | inssaagostinho@gmail.com | linkedin.com/in/inssa-agostinho-abudo | Website: issaabudo.github.io/inssa-abudo

PROFESSIONAL SUMMARY

Youth Digital Officer with the Norwegian Refugee Council (NRC) in Mocímboa da Praia and 5+ years in digital inclusion programs. I believe digital tools should be accessible to everyone, regardless of geography or poverty, and I work where technology, education and social impact meet: from community engagement to the data, reporting and systems that hold a programme together. I come from the communities I serve, and I want to grow into programme coordination and digital innovation roles that put evidence and technology behind decisions affecting current and future Mozambicans.

PROFESSIONAL EXPERIENCE

Youth Digital Officer | Norwegian Refugee Council (NRC) | *Mocímboa da Praia | August 2026 - Present*

- Coordinate phase 1 of the NRC digital literacy programme: 90 direct participants in three cohorts of 30,covering all neighbors of Mocímboa da Praia, against a target of 80% programme completion; also support all other hub visitors.
- Led district- and community-level stakeholder engagement and a youth survey reaching 1,180 young people across several assessment stages, followed by an aspirations assessment, participant selection and publication of results at community level.
- Analyzed beneficiary data to ensure representation across the 14 neighbourhoods and by gender, prioritizing women as the most vulnerable group; identified community champions.
- Designed an integrated hub management and monitoring system using HTML, JavaScript, Supabase; built with AI-assisted development to register beneficiaries and support monitoring - (submitted to HO for evaluation).
- Manage participant support through Aidonic: unique participant IDs and QR-code check-in, used to confirm transport subsidies and other investments, giving coordination managers a transparent, traceable record.
- Track participants' progress on Coursera and other MOOCs and monitor investments in their business initiatives.
- Coordinate with Procurement department, In Identification IT tools specifications and suppliers for hub equipment (laptops, tablets, task packs and Starlink kits);
- Produce monthly activity reports for coordination; use SharePoint for team collaboration and report storage;
- Develop digital literacy modules for internal NRC use.
- Assess the expected impact and added value of prospective partnerships (Aga Khan Foundation, Vodacom programmes) to inform their suitability decisions before MoUs are signed.

Medical Interpreter | Médecins Sans Frontières (MSF-OCB) | *Mocímboa da Praia | May 2026 - July 2026*

- Provided accurate medical interpretation between international medical staff and local patients in a humanitarian hospital setting
- Facilitated cross-cultural communication within multidisciplinary teams during clinical activities and investigations
- Maintained strict confidentiality and professional standards in high-pressure humanitarian environments

Senior ICT Teacher & Digital Inclusion Lead | Mainsha Makulu Center (MMC) | *2021 - 2025* | *Pemba*

- Coordinated the centre's entire digital literacy programme, from curriculum design to delivery, for youth communities in Pemba and surrounding areas.

- Led the deployment of Starlink connectivity in 2023 during the national internet shutdown, maintaining access to digital resources for students and the public.
- Managed day-to-day ICT operations and an academic management system used by external users and for internal decision-making, coordinating with management on digital decisions.
- Developed and delivered modules on Microsoft Office, Google Workspace, cloud computing and AI tools.

ICT Teacher | **Morning Grade International School** (Cambridge Curriculum) | *January 2026 - May 2026* | *Maputo,*

- Delivered ICT curriculum to secondary school students with focus on practical digital skills

EDUCATION

- **Master's in Project Management** (coursework completed, dissertation pending) - Universidade Iris | 2025 - present

- **Bachelor's degree in Information and Communication Technology (ICT)** - Universidade Católica de Moçambique (UCM) | 2021 - 2025

SKILLS & COMPETENCIES

Digital Skills

- **SYSTEMS:** Html, Css, Js, Git/GitHub, CLI · ODK · Microsoft Office Suite · Google Workspace · Kolibri
- **HARDWARE:** IT Troubleshooting, Starlink· Network
- **DATA ANALYSIS:** Excel, Power BI, SPSS, R

Humanitarian

- Humanitarian principles
- Stakeholder engagement
- Gender-disaggregated analysis
- Data protection for beneficiary
- Conflict sensitivity
- Do No Harm
- Accountability to Affected Populations (AAP) · M&E

LANGUAGENS

- English (C1) | Portuguese (C2) | Franch (B2) | Local Languages (Fluent)

Soft Skills

- Cross-cultural communication
- Community engagement
- Training facilitation
- Problem-solving
- Team leadership

CERTIFICATIONS & TRAINING

- Cisco Certified - Networking Fundamentals (Cisco NetAcad)
- Health, Safety & Security Risk Management - NRC (2026)
- Humanitarian Principles & Code of Conduct - NRC (2026)
- Performance Management – NRC (2026)
- Work Certification – MSF-OCB (2026)

KEY ACHIEVEMENTS

- Designed an integrated hub management and monitoring system, now under head-office evaluation as an NRC innovation.
- Coordinated a selection process from a survey of 1,180 young people to 90 direct participants across all 14 bairros of Mocímboa da Praia, with representation checked by neighbourhood and gender and priority given to women.
- Run transparent participant support with Aidonic: unique IDs and QR codes scanned at check-in confirm transport subsidies and other investments, giving managers a traceable record.
- Led the 2023 Starlink deployment at Mainsha Makulu Center during the national internet shutdown, keeping students and the public in Pemba connected.
- Coordinated Mainsha Makulu Center's entire digital literacy programme for four years, from curriculum design to delivery.
- Successfully transitioned from humanitarian field interpretation (MSF) to digital programme implementation (NRC) - demonstrating versatility and cross-sector value
